

BSNR 2005

The Edinburgh Neurointerventional Festival

A Refresher Course in Interventional Neuroradiology running in conjunction with the annual BSNR meeting

Thursday 6th October 2005

0930

Coffee and Welcome

Dr Robin Sellar (Edinburgh)

New Technologies Section

0945-1005

New Devices for Neurointervention- do they work & what's the evidence?

Dr Andy Molyneux (Bristol)

1005-1030

Intracranial Stenting- when & what to use

Dr Michel Mawad (Houston)

1030-1055

Experience with hydrogel coated coils

Dr Jacques Dion (Atlanta)

1055-1115

Coffee

1115-1130

What's new in Anticoagulation and antiplatelets in neurointervention

Dr R Laitt (Manchester)

1130-1150 PGLA/PGL coated coils

Dr L Spelle /Andy Molyneux

1150-1200

Panel round up of new technologies

AVF/AVM Section

1200-1225 Dural AV Fistulae- "how I do it"

Dr Karl ter Brugge (Toronto)

1225-1250

Glue or Onyx for AVMs – "how I do it"

Dr Anil Gholkar (Newcastle)

1250-1340

Lunch

1340-1405

Difficult AVMs- "how I do it"

Dr Karl ter Brugge (Toronto)

1405-1430

Role of surgery in AVMs

Prof D Mendelow (Newcastle)

1430-1500

Results of AVM treatment-An independent analysis of the outcomes

Dr R Al-Shahi, Prof CP Warlow (Edinburgh)

1500-1520

Coffee

Mx of Unruptured Aneurysms Section

1520-1545

Unruptured aneurysms- what's the evidence

Dr P White (Edinburgh)

1545-1610

An independent perspective from the neurologist who neither coils nor clips aneurysms

Dr R Davenport (Edinburgh)

1610-1720 House Debate.

Chairmen- Dr R Davenport, Dr A Gholkar

“This house believes that there needs to be RCT evidence before introduction of treatment of unruptured intracranial aneurysms into routine practice”

For:

Andy Molyneux / Prof CP Warlow

Against:

Robin Sellar / David Mendelow

1730
