Deadlines

Abstract submission: 1st July

Registration opens: 10th May

Early registration deadline: 20th July

Fees

	Student	BCISMRM	ISMRRM	Non-member
<i>Prices are in GBP and include VAT</i>				
Hyperpolarisation Workshop (Wed)	£110	£30	£40	£40
Main Meeting (Thur/Fri)	£90	£145	£165	£190
Day Rate	£50	£85	£100	£120
Conference dinner for day attendee	£40	£45	£45	£45
Accommodation (per night):				
Shared Bathroom	£25	£25	£25	£25
Ensuite	£37	£37	£37	£37

Scientific Meeting

2nd and 3rd September 2010

The main scientific sessions will cover diverse themes relevant to both clinicians and physicists:

Thursday: Multinuclear and Spectroscopy, fMRI Methods and Applications, MR Physics and Hardware

Friday: MR in Cancer, Molecular Imaging, Clinical MRI and Translational MRI.

In addition to oral and poster presentations, we are pleased to have the following invited speakers who will talk on aspects of these key themes:

- **Bill Moore Lecture: David Gadian**, Institute of Child Health, UCL.
- **Silvio Aime**, Turin University
- **Nandita DeSouza**, Institute of Cancer Research.
- **Xavier Golay**, Institute of Neurology, UCL.
- **David Hawkes**, CMIC, UCL.
- **Thiery Huisman**, Baltimore University.
- **Klaas Pruessmann**, Institute of Biomedical Engineering, Zürich University
- **Steve Smith**, FMRIB, Oxford University.

See website for full programme:

www.magres.nottingham.ac.uk/bcismrm2010

Registration Information

Registration forms can be downloaded from the website. Send completed form with a cheque to cover fees to BC-ISM RM, Sir Peter Mansfield Magnetic Resonance Centre, University of Nottingham, Nottingham, NG2 7RD.

Abstracts

Abstract submissions are invited from all areas of MRI and MRS research. The abstract template can be found on the website. Abstracts are to be submitted to bcismrm@nottingham.ac.uk by 1 July. Accepted abstracts become subject to copyright of ISMRM.

AstraZeneca Prize

The AstraZeneca Prize for *in-vivo* MRI and MRS is designed to encourage MR scientific research in pre-clinical work. Award selection based on innovative *in-vivo* MR research for potential in medicine or medical research.

Sir Peter Mansfield Prize *New this Year*

The Sir Peter Mansfield Prize will be awarded for the best presentation on innovative technical developments in the field of magnetic resonance in medicine and biology.

Student Stipends

Student stipends are available to promote student participation. To be eligible, you must be a full-time student, supervised by a BC-ISM RM member and be the presenting author on an accepted abstract. To apply, please request a stipend in your abstract submission email.

Educational Workshop:

Hyperpolarisation

Wednesday 1st September 2—5 PM

As in previous years, a satellite educational workshop will be held on the Wednesday prior to the main scientific meeting. Invited speakers for the workshop on hyperpolarisation and multinuclear hardware include:

- **Kevin Brindle**, Cambridge University, DNP
- **Jim Wild**, Sheffield University, Xe/He MRI
- **Thomas Meersmann**, Nottingham University, Kr MRI
- **Jun Shen**, NIMH, ¹³C Spectroscopy

IPEM workshop

'It's a risky business: use of off-label and non CE marked software and hardware in the research and clinical setting'

Wednesday 1st September 11– 1 PM

Talks will cover safety management and liability in pulse-sequence implementation; use of non-CE marked software for analyses affecting patient management, and the MHRA definition of medical devices. Speakers to be confirmed. Workshop open to both IPEM and BC members.
